Provider-Facing Enteral Therapy Process

When a patient chooses ContinuumRx for Enteral Therapy:

1. The HH Dietitian completes the Enteral Detailed Written Order (DWO) form and places it in the patient's chart.
2. Once ContinuumRx approves the DWO, the Social Worker will ask the physician to review and sign it.
3. After the physician signs the DWO, the Social Worker sends the signed form to ContinuumRx through CarePort.
